Networked Live's Accelerate: Business Growth Conference brings together business owners, leaders, entrepreneurs and professionals to learn, grow and network while listening and learning from leading speakers. Sponsors will gain access to Networked Live members, those that will attend the conference, and those that are active but unable to attend. You'll reach 200-250 professionals onsite and upwards of another 40,000 throughout our network.

## About the Conference

Networked Live has a mission, to help our members maximize a cycle of prosperity. Our objective is to put growth opportunities in front of our members, while introducing them to other business people they can do business with. Our members have a growth and innovation mindset.

The Accelerate: Business Growth Summit is another opportunity for our members to meet together, rekindle and foster new relationships, learn and accelerate their business growth.

We're not looking for any sponsors; we're looking for the right sponsors. Sponsors that help our members grow financially, personally, and professionally, experience increased health and vitality, prepare for the unseen, and enlighten them to be more innovative.

## Benefits of Being a Sponsor

Sponsorships start with a simple insert into our free member giveaway tote bag, all the way up to the premier event title sponsor. Our objective is to allow you to impact the community at the level and way you want. This means we can customize your sponsorship to meet your unique needs.

Networked Live is much more than a networking community. We offer professional development, coaching, and mentoring, allowing us to pull from a diverse professional community. The summit allows you to reach beyond those who attend our standard networking events.
